

CUMHURİYET PRIMARY SCHOOL E-SECURITY POLICY

In order to ensure that our children know how to best use existing opportunities through digital technologies, they need to know and understand the use of secure internet.

In this context, the following e-security measures are taken in our school:

- The school leader and his staff receive the necessary training for internet security.
- School staff and stakeholders are open to digital developments and new trends.
- School staff provides training to students, parents and stakeholders at regular intervals.
- The internet provider (MEB) in the school has prevented access to all kinds of harmful content. Access to these sites is attached to the MEB internet filtering network.
- The passwords used by the personnel are changed at regular intervals for internet security.

In our school in 2018 and 2019, "safe internet day" was celebrated by eTwinning Club guidance teacher Ramazan Kaderli and Psychological Counselor and guidance teachers.

- These teachers of our school shared on the e twinning portal, safer internet 2018 eTwinning Beyşehir facebook, and Telegram accounts.
- Safer Internet Center (gim.org.tr) - Official page of Safer Internet Center.
<http://guvenlinet.org.tr/tr/>
- Safe Child (guvenlicocuk.org.tr) - Game and entertainment portal for children under 13 years old.
- Internet security is introduced to other teachers, parents and students in our school.
- Our school received a bronze label from <https://www.esafetylabel.eu/>.

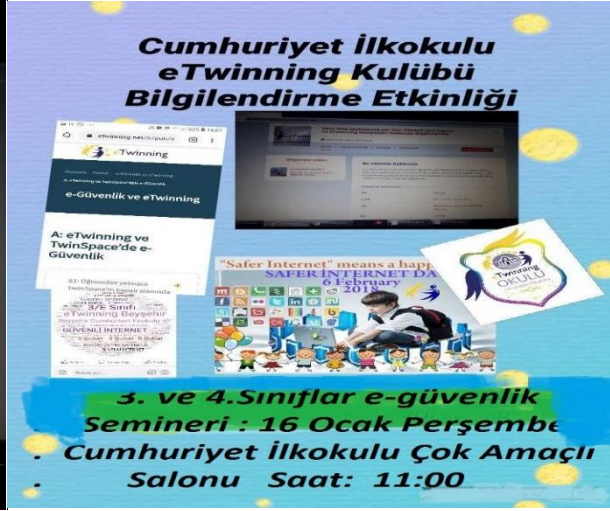

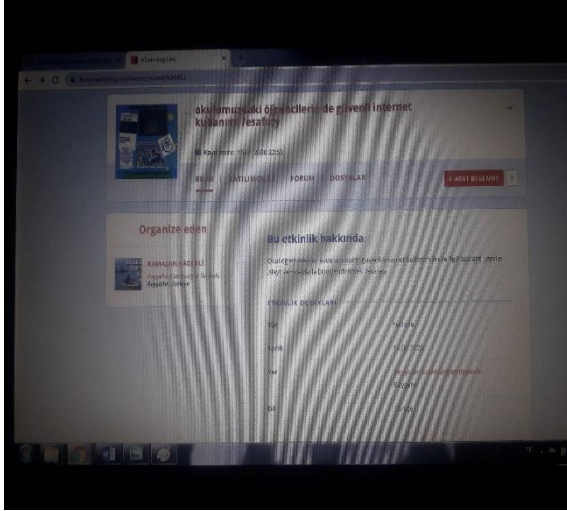

Some of our teachers in our scho
completed the seminars at

<http://etwinningonline.eba.gov.tr/course/internet-guvenligi> and got a certificate

The studies and measures related to e-security in our school were arranged with the Additional Decision of the Teachers' Board.
